An easier way to protect customers and employees

The Digital COVID-19 Vaccine Record (DCVR) is an electronic vaccination record recognized by the state of California. It includes a QR code that displays the same information as a paper CDC vaccine card, making it easy and secure to confirm if a customer is vaccinated.

How to verify vaccination status with the DCVR

Option 1
Scan the QR code with an app

1. Download the SMART Health Card Verifier app from the App Store or Google Play.

2. Scan customer's QR code.

3. Confirm the green verified indicator appears at the top of the screen.

4. Confirm name and birthdate match person's photo ID.

Download the SMART Health Card Verifier app

Download on the **App Store**

GET IT ON **Google Play**

Other verified app readers will be available in the future.

Option 2
Verify manually

Personal Digital COVID-19 Vaccine Record

If you don't have devices available to download the SMART Health Card Verifier app, you can manually verify by confirming information on the Personal Digital COVID-19 Vaccine Record matches the person's photo ID.
